

NEW TRAINING
October 29, 2011

Patient Advocacy 101

Presented by Patty Skolnik ~ Citizens for Patient Safety
& The Empowered Patient Coalition

After completion of this workshop, participants will be able to:

- Understand what patient safety is and its importance.
- Identify who could or should not be an advocate.
- Learn the duties, responsibilities, and barriers for a patient advocate.
- Identify hospital staff and their primary duties to patients.
- Learn how to properly communicate and partner with the healthcare team.
- Learn what shared decision making is and patient centeredness.
- Learn what to do if you have a concern (staff member, hospital, insurance)
- Discuss the culture of less blame and more solutions....Partner not Panic.
- Learn how to use the patient safety Patient Medical Journal:

~Finding Your Way Through a Safe Health Care Journey
